

# THE PEER REVIEW

SPRING 2023

SOMI SOMI

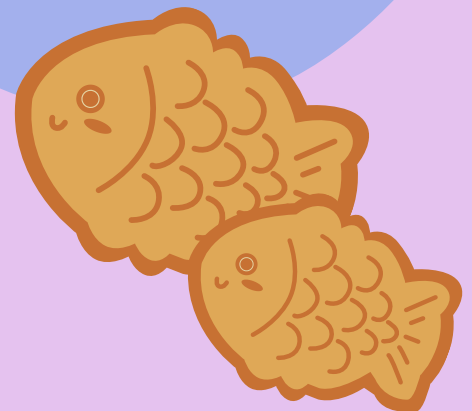

For this quarter's Peer Review, the Peers decided to get Ah-Boong from **SOMISOMI** at UTC. "**AH-BOONG**" is a fish-shaped waffle cone filled with your choice of filling and topped with soft serve. **SOMISOMI** offers a variety of soft serve flavors, fillings, and toppings! And if you're more in the mood for something warm, they have **Taiyaki** as well! We found that most peers prefer to get red bean filling, while Tanvi prefers the taro filling. We would definitely rate this place 5 stars on Yelp for sure!

## FUN FISH FACTS!

Did you know that taiyaki was first sold in Japan in 1909? Taiyaki gets its shape from the red sea bream fish, which is called "tai" in Japanese.
