[https://docs.google.com/forms/d/e/1FAIpQLScI4xhXOITQXAqbG8I995\\_SKU0tq-eakDY4thRAggGsFcni7g/viewform](https://docs.google.com/forms/d/e/1FAIpQLScI4xhXOITQXAqbG8I995_SKU0tq-eakDY4thRAggGsFcni7g/viewform)

      - Loyal E. Horton Dining Awards: UCSD won gold for implementing and executing programs regarding food safety, nutrition, and basically any

efforts towards dining; huge pool of schools and programs were considered, but UCSD came out on top!!

❖ **Accuracy of Covid Dashboards**

- The website is updated daily but may not reflect people who have checked out early once cleared and the expedited cleaning that is happening (rooms are cleaned as soon as they are vacated instead of the next day). Currently, we have 214 spaces and are adding 25 more on Friday and there were 17 spaces available as of last (Tuesday) evening.
- as close to accurate as we can get given how fast people move in and out and the daily update to the dashboard and this is managed by our campus health partners.
- Quite a bit of lag on the waste water dashboard as it takes time to collect, transport, test, and update the dashboard, so be sure to test!

❖ **Revelle Questions**

- Screens: case by case basis, the cost isn't the only issue, 30% of screens have to be replaced yearly due to poor maintenance; some windows weren't designed to accept screens, submit a work order if dire circumstance
- WIFI- wifi e-lock project last summer throughout Revelle, installed some wifi WAPs (wireless access points) this summer, submit weak areas to HDH, still need to install more WAPs this summer so hopefully it will be fixed, submit tickets if urgent

- D. Vice President of External [-]**
  - ❖
- E. Associated Students Revelle College Senators [Dylan Hahn and Kathleen Nguyen]**
  - ❖ Constitutional Overhaul:
    - Reformation of stipends by introducing levels of stipends with wages increasing as workload and responsibilities increase
    - Change in individual responsibilities of senators (office hours & community engagement)
    - Change the number of senators from 2 to 1, off-campus reps from 2 to 1 and increase campus-wide senators from 5 to 8 (let us know/give us feedback as we have not casted our votes yet!)
    - Reasoning to reform is to increase campus-wide representation, difficult to maintain so many senators with increasing colleges, imbalance work between co-senators, and wanting to minimize cliques within college senators
  - ❖ Election Reform Overhaul:
    - Longer campaign weeks (change to three weeks), longer hiring process
    - Change to appointment time from week 8 to week 10 to accommodate being rushed into positions during midterm/finals
  - ❖ Standing Rules Reform:
    - Alterations to executive power such as the authority to determine staff composition in their office to a certain extent
    - Changes to individual rules and responsibilities of cabinet/executive/senate members(a lot of minor individual changes such as adding specific powers for situations not in standing rules, and providing areas for more public input/report of academic misdemeanors/misconduct in the Office of Academic Affairs)
  - ❖ Events:
    - Women in Culture Art Fair: if you wish to submit your art, the deadline is May 20 and it's a great way to get your art published! The themes are Women in Art, Feminism, and in general Female Empowerment

- ❖ Discussion Topics
  - Homework Codes
    - Office of EDI
      - Codes for textbook or materials for classes
        - ◆ Must be bought for certain classes (rebought if fail class)

- May be financially inaccessible or discriminatory to students who are disabled
- Students are frustrated that they have to buy material that ends up rarely being used
- Asks senate to find a solution for it, offer ideas, or generally just show support for this cause

Appreciate unity from senate to solidify argument

❖ AS Senators

- Recognize that banning or limiting codes that professors can use would be illegal under the academic freedom clause
- Focus of pushing academic aspect instead of banning altogether
  - Ex scholarships, grants, maybe even petition for a waiver?
- Should have professors be upfront about the materials needed for their course (and their cost) on webreg
  - Would help students decide
- Make a task-force
  - professors, students (esp stem), and edi participants to identify the collective decision of how to move forward
  - Now there is an ongoing discussion of how early this task-force should meet/begin working
    - Should wait until december to fully think things through
    - Should get started now in time for the next upcoming quarter

❖ Undergrad Teach-In for Potential Student Worker Strike

- TA's and Grad student instructors are going on strike
  - Protect and increase worker's rights and benefits
- Will begin on Monday 11/14
  - If agreement is not reached by Tuesday, classes will become suspended
- They do the majority of teaching and research at UC but yet do not receive the fair-share of the state funding their labor brings in
  - Over 90% are rent burdened
  - Cant afford to live where they work
  - Want to be able to focus on teaching not on basic needs
- What are they fighting for
  - COLA (cost of living adjustment)
  - Childcare benefits to support working parents
  - Smaller class sizes to increase student experience
  - Equity for international scholars
    - Some are at risk of losing green cards or being deported if not in accordance
  - Sustainable transit benefits
    - Just like students have free transportation
- Realize that the school will try to turn undergraduates against these strikers by scaring them into thinking their grades are at risk
  - Realize that though the strike may pose temporary challenges it is for a greater cause for everyone
  - The strike is not illegal
- The strike will occur across ALL UC's
  - Historic 36,00 votes in favor
  - Instead of teaching or researching, they will set picket lines on campus
    - Ask for students to join their solidarity
- Some faculty are unable to stand in solidarity (by canceling class for example)
  - Legally cannot, may lose job and risk not getting paid
  - Undergraduates have the choice that they don't

- ❖ I followed up with HDH regarding broken washers at Revelle. They did an audit of all washing machines and dryers and found that the two problem areas are Argo 2 and Argo 5. They'll be meeting with WASH (the vendor) since there seems to be a disconnect with the understanding of the problem and what it will take to get it fixed. There was also a broken washer in Keeling, but that's since been repaired
  - ❖ Immunization non-compliance holds were placed on new and continuing students last night.       - ❖ Revellution (Discussion)
        - Requesting an additional \$19,701.66 from GU
        - A total of \$24,701.66 will exceed their line item of \$45,000 (The event cost may exceed this because of inflation).
        - We speculated that there is \$50,000-60,000 student fees left that aren't reserved for line items for the rest of the year. We will have a remainder of \$25,000-\$35,000 left!
        - Estimated attendance is 700, which would be around \$93 dollars per student spent when student fees are \$9.
        - We have approved \$45,000 already through Discord!

- F. **Student Services Committee [Josef Daniels]**
  - ❖ Our first HUM Book Drive is complete; thank you all for coming and supporting us! We were able to bring in 14 new books for the Humanities Book Lending Program and, perhaps more significantly, were able to publicize the program to a large number of our student body!
    - Feedback suggested that we should institute the HUM Book Drive as a regular installment of the Student Services Committee and may have another one at the more popular time of Week 1/2 in Spring Quarter.
  - ❖ The meeting time for the Student Services Committee has been changed! After our latest poll to determine a more suitable time so that everyone can attend, we will now be meeting Wednesdays from 6:00pm to 7:00pm starting *next week*, February 15th.

  - ❖ Professors Klosterman "U" grades
    - During the strike, the Chemistry department threatened retaliation against workers withholding their labor with unsatisfactory grades in Chem 500 and 299, courses which provide required credits for students engaged in teaching and research. This unlawful intimidation resulted in a ULP filed by UAW against the department. Despite this outstanding ULP, it has come to our attention that Professor Jeremy Klosterman followed through on these threats and gave unsatisfactory "U" grades to several ASE's in his fall quarter course, Chem 43A.

  - ◆ **EDI Advocate [Golsa Rahbari]**
    - ❖ As some of y'all may know, I had my angry meeting with the EDI vice chancellor, so

here are some highlights:

- I talked about the new housing process and how it kind of didn't work because people who didn't have groups took up new suites so there wasn't space for full groups, when all students were encouraged to find a full group, for example a group of 6 for keeling.
- I was connected to some AVC's to talk about the issue with them
- I also talked about enrollment and how it's inequitable for students who didn't have opportunities to take AP and IB courses to have better enrollment times, so I will hopefully be starting a long term process to work towards a better system
- We also went over the strategic plan for academic excellence toolkit and about some of the goals of office of EDI
- ❖ I went to Sacramento this Tuesday with some UCSD students, along with students from all UC's to talk about Cal Grant Equity alongside a raise in budgets for basic needs. By the end of the senate meeting and public comments only 3 additional sub committee members for education fiance and the chair remained, and he was very adamant about us only talking for 1 minute each, so we all gave rushed, angry comments kind of, but it still had an effect because there were so many of us.
  - Basically for basic needs CSU and CCC campuses got a raise in their basic needs funds in 2019 with the rise of student needs, and while UC campuses had a 40% increase in student participation, the budget has not been raised since 2019. This means that funds per student went from around \$38 per student to around \$24, which is #terrible.
  - So we went to ask for an additional \$5 million from AVAILABLE BUDGETS
  - For cal grant equity, the chair, McCarty proposed the intention which was signed by governor to allow for more cal grant equity, which would allow an additional 150,000 students to receive the grant.
