I encourage you all to keep being amazing and putting on self-care themed events! They're super important in reducing the stigma and educating students on the resources available to them on campus that not only help them through mental health issues but also identifying the root of them because it is very intersectional.
 - ❖ I am currently working with the EDI office to encourage professors to provide EDI focused resources in their syllabi, i.e. Basic Needs, Resources Centers, CAPS, CARE at SARC, etc.

 - ❖ Student Center courtyard refresh
 - ❖ retail committee update
- **WCSAB [-]**
- **RFAB [Bassel Hatoum]**
 - ❖ Food Vendors
 - ❖ Hops and salt's lease was terminated on the 1st of July.
 - ❖ Rec gave its space to a company so they show it to potential vendors. Bella Vista, Board & Brew, and the Habbit Burger all looked at the space. Shakesmart did as well and is in the process of negotiating lease terms. It will open in early 2020 if we come to terms with them soon. The new vendor will be allowed to have an alcohol license but will not be required to.
 - ❖ 1 year extension was given to Peets and it is soon over, but we will not sign a new lease until we see another vendor.
 - ❖ The coffee concept is a great service, but we're unsure if Peets is the right concept financially. We might just rename it and work with a local roaster.
 - ❖ The goal is to have 3 functioning food vendors on that side of campus.
 - ❖ Two Projects in RIMAC
 - ❖ (Allocate 300k from reserves to do 2 projects)
 - ❖ 1. Shower Stalls
 - ❖ The Locker rooms on 2nd floor have 20 shower heads. We don't need that many, but we need more space for privacy.
 - ❖ We will replace half of the shower stalls with big private stalls with benches and hooks. They will be 4 inches off the ground, 6/7 feet high, with a partition in the middle and across (however, no mirrors, no hairdryers, etc...)
 - ❖ 2. Redesigning the men's restroom on the 3rd floor
 - ❖ The 3rd floor men's restroom is in a curious spot. It is usually used during the skybox events, which is not very student focused. We need a gender neutral private bathroom space with a shower and a baby changing station.
 - ❖ Main Gym + Natatorium
 - ❖ JFAK architect firm
 - ❖ 1st floor: flat 13k sq ft fitness floor, promote martial arts (matted areas w/ sliding glass), wet dry classroom (training lifeguards, etc...) not connected to rest of building, 2 smaller locker rooms for swimmers, private bathroom stalls for outdoor spaces, spin room, natural lighting.
 - ❖ 2nd floor: new entrance, low slabs next to stairs, lobby space, outdoor terrace, e-sports gaming lounge, climbing center.
 - ❖ 3rd floor: more functional gymnastics space, wood floor dance studio, space for student-centered rec staff, lounge for staff.
 - ❖ We need outside help for funding so we will start a \$40m rec funding campaign.
 - ❖ Zero Waste Event
 - ❖ Nov 8th
 - ❖ April Referendum
 - ❖ How will we get the word out to get the appropriate turnout?
 - ❖ ICA
 - ❖ Homecoming this weekend

- ❖ RIMAC Arena's West Side have bleacher backs now
- ❖ Nap pods and Bar Park have been widely successful
- **SCSG [Cameron Thomas]**

 - ❖ OASIS
 - 2 main programs that they wish to focus on
 - Hope Scholars Program is for mainly former foster youth but has expanded to students with large, disruptive trauma. Out of the 150 former foster students at UCSD, Hope Scholars reaches 76 of them (more than half) exclusively by referrals and word of mouth
 - This is a high funding priority since the foundation that supplies the funding is ending this year, would take about 50K from core funds supplied by SSF and is higher priority over new OASIS proposal
 - Two pilot programs
 - Lab training and certification, works through 6 clinics and could only take 65 out of the 120 applicants.
 - ◆ Of the 30K funding overall, half is from EDI and the other half is matched by OASIS from core funds
 - Transfer-to-Career Program servicing 35 of the 76 applicants utilizing peer mentors and CSC advisors to have transfer students acquire gainful employment by the end of their years at UCSD

- ◆ Of the 40K funding overall, half is EDI and the other half is again matched by OASIS from core funds
- New proposed expansion of the Summer Bridge program, specializing in transfer students as well as getting students careers after college by working extensively with UCSD and CSC
 - Looks to service about 100 students and requires 300K in funding from UCSD, lower priority than the Hope Scholars Funding
- ❖ ISPO
 - ISPO is piloting a new Peer Coaching program to help service these students socially as opposed to just professionally
 - Has 10 trained coaches with each coach servicing about 80-90 students, responsibilities are more academic in nature, such as referring students to the proper channels and helping students wade through a first year of college life
 - Program is initially opt-in to first get involved, then students get reached out to over the summer
 - Goal of the program is to service about 500 students by the end of 2022, with about 20-25 Coaches working with 25 and 20 students respectively
 - Cost of program is currently unknown as this is the first quarter of a year long pilot program
- ❖ AEP
 - Services students through a host of student participated conferences and research opportunities, as well as various scholarships and referrals to faculty members and professors.
 - Does not have any specific requests for funding currently, as a large part of the funding is through other scholarships or grants given by private donors
 - Goal is to service about 15% of the undergraduate population, but no specified timeline for that goal
- ❖ SVRC
 - Hired another FTE with funding recommended to VC office last year by SFAC
 - Has potential populace of 450 students that are ROTC, family members of military personnel, or veterans/service(wo)men themselves
 - Currently is reaching $\frac{1}{3}$ (150) of those students, but the ideal goal is to reach $\frac{1}{2}$ (225)
 - Use majority of funding on the 2 FTEs and Peer Navigator and Military ALLY programs
 - With more funding, would like to go and do more outreach at the community/junior college level and work with the student veterans organizations already established there
 - Physical space is also a concern for them, and would like to potentially move

 - **SFAC [Arbi Leka]**
 - ❖ Art Power
 - Runs at a loss every year due to undercutting local theatres by hosting them both on and off campus and charging students \$5 to \$9 while public pays around \$30 to \$50
 - Running at a loss is typical of a performance based organization, programs on other UCs also run in the same fashion with only breaking even or at a loss
 - Reaches two thousand students a year, with said student population making up a third of the total audience
 - Students only make up about 5-10% of the audience on other campus' programs
 - No indication of further funding requests to SFAC this year
 - ❖ Grad Division
 - Was granted funding from SFAC for a Graduate Case Manager for students of concern, but still in the process of filling that newly created position as well as another open position
 - No indication of further funding requests to SFAC this year
 - ❖ Case Management Services
 - Have three case managers for a yearly demand of 1200 cases
 - Other job duties include training faculty and staff as mandated reporters
 - Have to be able to manage cases about family problems, mental and physical health, hospitals, financial and basic needs, etc
 - No indication of further funding requests to SFAC this year
 - Despite this, the case managers in the Grad Division will help with this load so hopefully there is no need, however the chance that this is the case is slim
 - ❖ Office of Student Conduct

- Have just moved offices but are still covered with staff as most student conduct violations are low priority and handled at a lower level with RA/HAs, CSOs, Deans, and so on.
- Requests may include funding for more furniture to create a space for the students within the new office to work and also an isolated hearing space for incidents that reach OSD
- ❖ CARE @ SARC
 - Due to larger student population and last year's incidents in Greek Life, the peer educator group that works with GL may need more staff as well as an increase in educational material/requisite seminars for incoming and continuing members
 - No indication of further funding requests to SFAC this year
- ❖ Student Legal Services
 - Legal advice on all matters besides taxes
 - Requires too much commitment and specifics to be able to help a large pool of students in a timely manner
 - Funding requests:
 - Extend Immigration Services through helping more international students with legal representation, getting a non-student visa, or assistance with Occupational Practice Training (ISPO cannot assist)
 - Tax Services by helping with students starting businesses and startups by dedicating more time to file articles of incorporations and setting up bylaws for the company
- ❖ Units that we will be touring tomorrow:
 - Study Abroad
 - Center for Student Involvement
 - Student Life Business Office
 - University Events Office
- ❖ Funding requests were due 12/01/19 (Sunday that just passed) and those will be released to SFAC members and reviewed over the course of the break

 - ❖ Review
 - Tritonfest
 - Budget split into two budgets due to contention on FTE
 - UEO Events Coordinator FTE
 - ◆ Allows for the four person office to move to a five person office
 - ◆ Allows more cooperation for between more smaller pockets of community between clubs/student orgs and between UEO
 - ◆ Once funded, essentially permanent
 - Winter Triton Fest
 - ◆ Continues the winter tritonfest for another year
 - ◆ Easier to cut back on in case of attendance drop
 - ◆ Marketing is a necessity and lack of elucidation of that
 - Medical Records Analyst

- Essentially a flow rate issue in regards to students submitting immunizations late and getting registration holds
- Main argument is that this need takes away from other positions
- Little to no data that shows effective need for this open position
- Undocumented Student Services
 - Equity argument that students who are undoc should be able to have peace of mind across campus
 - Immigration Attorney
 - Since the coast legally counts as a border, and since UCSD is within 25 miles of the coast (clearly), border patrol can enter on private property (but not within a home or dwelling, which both apartments, on or off campus, as well as dorms counts as) without a warrant
 - Career staff higher priority than the scholarships as those can be potentially routed through FAO
 - How can some of the costs be offset by other FFU on campus?
- Ranking
 - UCAB [Amberine Kabir]
 - ❖ I have nothing to report.
 - WCSAB [Kim Lim]
 - ❖ I have nothing to report.
 - RFAB [Bassel Hatoum]
 - ❖ Referendum Update
 - ❖ Canyonview Update

 - ❖ If anyone can, please please help me with door to door voter registration tonight
 - ❖ How do I reserve the sound system?
 - ❖ I need people to help with election day (MARCH 3RD!!)
 - ❖ I'll have shift times soon, but I really need people for AT least 10am to 2pm
 - ASCE [Michelle De Vries]
 - ❖ Sun god committee - sun god for a cause or health and safety

 - ❖ Using food incentive, please let me know what kind of food you would want to see!

 - **SFAC [Arbi Leka]**
 - ❖ Undocumented Student Services
 - Undocumented students also include any international student that lost their visa status while at UCSD/in the US, and are quickly referred over to USS as a resource
 - This request is to simply keep the center running at the same rate that it has had

- Immigration Attorney is not just a single attorney, but a group of them working from UCD and coming to UCSD to work on-site with USS, and is not just open to the students themselves, but the parents, direct siblings, and spouses of the students as well
- The center is built as if each student is not a DACA student, and therefore will be able to run just the same if DACA is removed, with 15% of students currently using USS not having DACA
- USS has some help from the VCSA in the form of a person who is exclusively attempting to gain private donors for the non-compensation part of the budget, and USS has said that private donors are a viable option for the non-staff budget items, but they haven't had the time to make the necessary connections to gain fruitful private donations
- Lack of info on the effect that student staffing had, as well as irregular structure of scholarships and disbursements
- ❖ Student Success Program
 - ISPO request for international peer coaches
 - Lack of data and support on this
 - Have met with the directors of this and have requested information, hopefully they have it ready for their presentation tomorrow

that I talk with Grace Fuller (Outreach Coordinator for International and Out of State Students serving Revelle, Sixth and Warren Colleges). Currently, I am in the process of talking with her, and other representatives that Shelley recommended, to see how we could put on a International Students Resource Fair/Workshop in Revelle. But that will probably not happen this quarter. If you have any thoughts, comments, concerns, questions, etc. regarding this, feel free to contact me. Thank you!

 - Description: "Intercultural Social Hour (ISH) is an event occurring on the last week of every month and it is sponsored by the UCSD International Students & Programs Office (ISPO). At the event, UCSD international and domestic students get an opportunity to share their cultures through different conversation topics, participate in networking activities, make new friends, and de-stress after class. Join us for great conversation, games, and light refreshments!"
- ❖ P.S: I'm sorry I could not physically be here for the meeting, hopefully the agenda is detailed enough.

Q. Campus-Wide Representatives

• **HDH [Alan Apte]**

- ❖ Vending Machine For Reusable Containers Program
 - Happening Fall Quarter
 - May test over the summer

- ❖ Kitchen Tour

• **SFAC [Arbi Leka]**

- ❖ Student Retention and Success Peer Coaching Program
 - Has centralization of peer coaches around the school, including but not limited to SVRC, First gen students, ISPO, and others
 - Has large number of unique students coming for peer coaching, around 400 in some cases, with the students reporting large number of satisfied responses on surveys
 - The respective group fronts the cost of the peer coaches, so this ISPO request funding should come from Global Engagement, but as they are in the process of separating into their own department, things have been messy for them and have other concerns/things to prioritize within their own funding (Perhaps recommend for another year of one time funding to give GE more time to settle into new departmental roles before having them absorb the cost for the ISPO peer coaches

- Lack of insight on what the position of the graduate assistant is besides data collection, especially the need for it if another FTE is going to perhaps be added as the lead for this campus-wide program and they perhaps might not need an assistant. Further narrative needed before an informed decision can be made on this position.
- ❖ Tritons Together Campus Dialogue Program
 - No
- ❖ ArtPower
 - Their budget was heavily cut in the housing crisis and are trying to earn their way back to the level of funding that they had before the recession, and are funding a lot of their own needs through their own revenue streams, perhaps forcing them to raise ticket prices or go with “safer” performances that are guaranteed to bring in dependable flow instead of pursuing new performances/artists to bring aboard and lessening collaboration between ArtPower and the student body themselves
 - Currently funding a FTE production manager through their own revenue stream, if this position is funded, releases a lot of soft money for ArtPower to be able to fill some of their own gaps/one-time costs
 - Due to renovations, need further funding to be able to go to off-campus sites that are able to house their performances, especially dance
 - Open air amphitheatre in Warren is supposed to be ArtPower’s new base of operations when it opens, perhaps this is only a temporary need for the unit that has to be covered by the school until construction is done, lack of clarity on necessity of permanence of budget
 - Any questions about the report or to ask ArtPower tomorrow? Message me
- ❖ Graduate peer educator program
 - 4 graduate career peers with their own stipends and fee remissions, supposed to both help grad students to get out of academia and to lessen necessity of TA-ships for grad students to pay off tuition
 - Graduate Student Association Representative brought up during discussion that some departments, such as Biology, already have this taken care of within their department and don’t rely on the Career Center for this, raising question of how many departments need this and how can, for example, a humanities Career Peer help an CS or EE grad students with job opportunities, or are the Career peers only for certain smaller departments such as Humanities or Philosophy and the like

 - **HDH [Alan Apte]**
 - ❖ 64 Degrees Kitchen Tour
 - ❖ North Torrey Pines
 - Sixth Housing
 - Dining
 - **SFAC [Arbi Leka]**
 - ❖ ArtPower
 - Highest priority is the Production Manager, with this being able to free up about \$100K and allowing about 20 more events this quarter alone
 - ❖ Grad Division
 - Is an initial pilot program to have these and then cost will be absorbed by the Grad Division
 - Currently, Career Center has only 4 people for graduate students, this is to bump the number of GCPE from 1 to 5 to serve the 8,500 graduate students at UCSD; goal is to help graduate students get careers; over 50% are international
 - The breakdown is as follows
 - Engineering GCPE for JSOE
 - Life Sciences for Biological/Health Sciences
 - Physical Sciences for Physical Sciences and SIO
 - Non-STEM for literally anything non-STEM
 - Complaints about the size of JSOE creating the most strain on graduate school and that priorities are not in the proper spots, with non-STEM having a only 50% satisfaction rating
 - **UCAB [Amberine Kabir]**
 - ❖ Nothing to report

 - ❖ SHIP (I mentioned these proposals before but I'm going to put it again because there are new details that have been added to it. These proposals are at an all UC-level)
 - 1. International claims
 - Cover all international services at the PPO coinsurance level and paid based on 100% of billed charges after \$500 deductible
 - 2. Increase Psychoeducational Testing Lifetime Maximum to \$4,500
 - Covered by UC SHIP with a \$3K lifetime
 - Maximum
 - Lifetime maximum protects the plan from billing abuse
 - Average billed/allowed in network (2016-18): \$912
 - Average billed out of network (2016-2018): \$2,858
 - 0.02% increase to plan (not set in stone and depends on utilization)
 - 3. Facial Feminization/ Masculinization Procedure
 - Pricing assumes the following covered services (provided by Anthem):

- Male to Female:
 - ◆ Thyroid Chondroplasty, brow lift, forehead contouring, malar (cheek) implants, jaw and or chin reshaping, lip shortening, scalp advancement, rhinoplasty
 - Female to male:
 - ◆ Augmentation thyroid chondroplasty, chin implant and or genioplasty, jaw implant
 - Increases premium to 0.3% but might increase more later on
 - This is not a standard benefit and there is a concern that if the IRS considers this cosmetic, there could be tax penalties to the student.
- 4. SB159: Pharmacist dispensed 30-60 day supply of PrEP or PEP
 - PrEP (pre-exposure prophylaxis) or PEP (post exposure prophylaxis) is the use of anti-HIV medication that keeps HIV negative people from becoming infected
 - Authorizes pharmacist to provide a 30-60 day supply of PrEP or PEP without a prescription

 - Recall: the refill station is NOT a hydration station; it's a little station where students will be able to refill plastic containers for personal care products such as shampoo, conditioner, etc. Products will be free for students and will help reduce plastic use!
 - ❖ Also, I'm thinking of planning an event to receive input from Revelle students on how to make Revelle more sustainable. I want to have a prize spinning wheel and give out bamboo toothbrushes, reusable straws, reusable beeswax wraps, etc.

D. Vice President of External [Eni Ikuku]

- E. Associated Students Revelle College Senators [Mick Salazar & Mihir Pandya]**
- ❖ The situation at other UC campuses
 - President Grudin provided an update to Senate yesterday
 - As of yesterday, all UCs are going online now (Merced was the last campus to change)
 - The starting and ending times of remote education vary by campus (UCLA, second week of spring, UCI, all of spring)
 - While there have been cases of the novel coronavirus in cities where UC campuses are, there have not been any cases reported at any of the UC campuses (so far)
 - ❖ Academic Integrity
 - The Sr. AVP of Student Advocacy is developing an infographic to inform students how academic integrity is being upheld during the process of transitioning to online finals and remote education in general, as well as what students should do if accused of violating academic integrity
 - ❖ Funding and money
 - FC Christensen said that he will be sending out an email soon about student organization funding for the spring
 - AS does not intend on cancelling any events and will continue to fund events (event funding can be applied for), but events must be in compliance with the Chancellor's directive (100 person limit)
 - ❖ The Senate approved clerical amendments to both the CAPS & Canyonview Fee Referenda as mandated by the AS Constitution
 - ❖ Constitutional Amendment
 - Currently the AS Constitution does not allow for any changes to the Election Code once elections season has started (it already has)
 - The transition to remote education could potentially impact the elections (second week of spring, campaigning the first two weeks)
 - The Senate debated a constitutional amendment proposed by the Executive team in order to address possible changes with the upcoming AS Elections
 - After about an hour of debate, myself, Mick, and a group of other senators were able to pass amendments to language which would allow for Senators to join the emergency committee which would be formed to devise such changes
 - The Senate passed the amendment, as amended, and now it is on us to ratify it

TIPS FOR A SUCCESSFUL TRANSITION

1

CREATE A DEDICATED WORK SPACE

Decide on a regular space to study that is quiet and distraction-free such as a desk in a bedroom or at the kitchen table. Be sure to have your textbooks, notes, calculator, and any other supplies you will need nearby. Let your roommates or family members know when you're working and ask not to be disturbed.

2

STRUCTURE YOUR TIME

Having an unstructured day makes it easy for time to slip away, so discipline is key. Create a schedule with specific times to watch lectures, study, read, and do homework and stick to it! Remember that you should plan for 2-3 hours of study time each week per credit to be successful.

3

MINIMIZE DISTRACTIONS

Put your phone on silent and out of sight and turn off the TV. Close social media platforms and other websites that may tempt you. A good pair of headphones could be helpful to block out distractions too.

4

STAY MENTALLY ENGAGED

Take notes during online lectures just like you would in a traditional classroom setting and ask questions throughout the lecture. Many virtual platforms have the option to virtually raise your hand or enter a question into a chat box.

5

ENGAGE WITH OTHER STUDENTS...VIRTUALLY

Isolation can weigh on your mental health. Be sure to continue to connect with other students. Facetime your friends, use Google Hangouts to chat, and create virtual study groups for each of your classes.

6

USE CAMPUS RESOURCES AND ASK FOR HELP

Your campus resources have not gone away- they've just moved online! Check your email and visit campus websites to find out how to access tutoring, academic coaching, the writing center, counseling, advisors, office hours, etc.

7

TAKE A BREAK!

Trying to study for 10 hours straight will likely be unsuccessful. Take breaks to get your blood flowing and give your eyes time to rest. All of these changes can feel overwhelming, so remember to take care of yourself and find time to unwind and do the things you enjoy.
