 - ❖ CAPS
 - How it works: Scheduling for first time appointments can be done from the CAPS website or to call the center office number. The student will then be scheduled for a brief telephone assessment. After, will be the initial evaluation.
 - Average wait time: Currently, approximately 6 days for initial evaluation. Note that wait times are always changing.
 - Is it possible for the student to have extended sessions? For example weekly sessions?
 - Technically although there are no session limits, extended sessions would mean that they would not be able to serve as many students as they need. (There are less than 40 caps providers.)
 - CAPS providers have office hours at the college communities that students can sign up for
 - Health coaching
 - Coaching is not a diagnosis but help student start their goals

❖ CCP

- Weeks of celebration: National First-gen Celebration (allies welcome!) and Veteran's Week (celebrating veteran students and those with military connections)
 - Celebrate First-Gen Day!
<https://srs.ucsd.edu/initiatives/triton-firsts/national-first-gen-day.html>
 - Veterans Week 2021
<https://svrc.ucsd.edu/events/veterans-week.html>
- Hunger and Homelessness Awareness Week coming up; a full week of events planned by AS
- Clarify the difference between an event and a simple meeting without food or drink
 - Simple meetings can happen indoors but events have to go through TAP and the events and activities intake form

- Food requests have to go through the events and activities intake form and TAP as well
 - Hope is to just do TAP in the future for RSOs but for now the events form must be done (though it is less strict to complete)
 - In terms of planning for events after Thanksgiving Day, it is uncertain; one should be prepared to have a hybrid option (have an online element) in the case that positivity rates go up
- Regarding course offerings for this upcoming winter quarter
 - Expectation is that in-person courses will be offered, but faculty can have some portion of their course be remote (up to their discretion) without going through the department
 - This quarter only 20% of courses have been remote so that level may be matched or lower for this winter- but this could change (expect future updates from the education continuity task force)
 - Encouraging faculty to allow for continued flexibility needs but are expecting additional in-person classes to be prioritized
- Week 10 BBQ

 - Boosted bucks is a go!

- Professors have the choice to make their class in-person or continue remote. I was told today that about 40% of classes are fully remote this quarter.
- For the rest that are in-person/hybrid, please follow guidance from your individual professor. They have final say on the modality of their class & will determine exactly what portions are in-person. They are strongly encouraged to provide hybrid options but unfortunately cannot be required to.
